## RED EAGLE MINING CORPORATION

### Notes to unaudited condensed interim consolidated financial statements

(amounts are in US dollars, unless otherwise stated)

#### 1. NATURE OF OPERATIONS AND GOING CONCERN

Red Eagle Mining Corporation (“Red Eagle Mining” or the “Company”) was incorporated under the *Business Corporations Act* in British Columbia, Canada on January 4, 2010. The address and domicile of the Company’s registered office and its principal place of business is Suite 2348 - 666 Burrard Street, Vancouver, British Columbia, Canada, V6C 2X8.

The Company is primarily engaged in the development and operation of the San Ramon Gold Mine and Mill. The Company also owns a 90% controlling interest in Red Eagle Exploration Limited (“Red Eagle Exploration”) which holds exploration projects in Colombia. The Company declared commercial production at the San Ramon Gold Mine and Mill at the end of the first quarter of 2017 and is therefore considered to be in the operational stage, but to date, has not earned significant revenues, as the Company continues to ramp up operations.

##### Going concern

These unaudited condensed interim consolidated financial statements have been prepared on the basis of generally accepted accounting principles applicable to a going concern that assumes that the Company will realize its assets and discharge its liabilities in the normal course of business.

The Company is currently in the ramp-up phase at the San Ramon Gold Mine and Mill. The Company incurred a net loss during the three months ended March 31, 2017 of \$2,591,383 (2016: \$144,614). As at March 31, 2017, the Company had cash and cash equivalents of \$5,916,962 (2016: \$4,202,170) and a working capital deficiency of \$26,179,655 (2016: \$25,673,840). Under the Company’s credit facility agreement, \$21,640,310 is due within twelve months of the balance sheet date. Excluding the current portion of the long-term debt, the working capital deficiency is \$4,539,345. The Company’s ability to continue operations in the normal course of business is dependent upon establishing positive cash flows from production at the San Ramon Gold Mine and Mill which has not yet been achieved. The nature and significance of these conditions may cast significant doubt about the appropriateness of the going concern assumption.

The Company is focused on achieving steady state gold production in the near term. For working capital and exploration purposes, the Company completed a bought deal financing in February 2017 for gross proceeds of \$13,118,868 (CAD \$17,250,000) consisting of 23,000,000 common shares at a price of CAD \$0.75 per share.

These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different than those reflected in the financial statements. Such adjustments could be material.

#### 2. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE

The unaudited condensed interim consolidated financial statements of the Company have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting and accordingly they do not contain all information and disclosures required for complete financial statements in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). Therefore, they should be read in conjunction with the Company’s consolidated financial statements for the year ended December 31, 2016, which have been prepared in accordance with IFRS.

The unaudited condensed interim consolidated financial statements have been prepared on a historical cost basis and are presented in US dollars.

The unaudited condensed interim consolidated financial statements of the Company for the three months ended March 31, 2017 were authorized for issue by the Board of Directors, on May 15, 2017.

#### 2. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE (CONTINUED)

##### Change in functional and presentation currency

Effective January 1, 2017, the Company changed its presentation currency from the Canadian Dollar ("CAD") to the United States Dollar ("USD"). The change in presentation currency is to better reflect the Company's business activities and to improve comparability of the Company's financial results with other publicly traded gold mining businesses. In making this change to the USD presentation currency, the Company followed the guidance in IAS 21 *The Effects of Changes in Foreign Exchange Rates* and has applied the change retrospectively as if the new presentation currency had always been the Company's presentation currency. In accordance with IAS 21, the financial statements for all years and periods presented have been translated to the new USD presentation currency as follows:

- All assets and liabilities have been translated from their functional currency into the new USD presentation currency using the closing exchange rate at the date of each balance sheet;
- Income and expenses for each statement of comprehensive loss presented have been translated at average exchange rates prevailing during each reporting period;
- Equity balances have been retrospectively translated at historical rates prevailing during the period incurred; and
- All resulting exchange differences have been recognized in other comprehensive income and accumulated as a separate component of equity (cumulative translation adjustment).

In addition to the comparative financial statements, the Company has presented a third statement of financial position as at January 1, 2016 as required by IFRS.

Due to the commencement of production and realization of USD cash flows from pre-production gold sales during the first quarter of 2017, the Company re-assessed the functional currency of all entities in the group and the functional currencies of all subsidiaries in the group changed to USD effective January 1, 2017. Previously, these subsidiaries had either a CAD or Colombian peso functional currency. The functional currency of the parent entity (Red Eagle Mining Corporation) as well as Red Eagle Exploration remained CAD. These parent entities are Canadian companies with the majority of costs being incurred in CAD and financings raised in CAD.

##### Significant Management Judgments and Estimations

###### Declaration of commercial production

The Company declared commercial production at the end of the first quarter of 2017. The criteria used by the Company to determine that the assets were operating in a manner intended by management was based on the processing plant at the Santa Rosa Project operating, over 30 consecutive days, at an average of at least 75% of design capacity.

As commercial production was declared at the end of the first quarter of 2017, applicable accounting policies related to the commencement of production will be applied prospectively commencing on April 1, 2017 and appropriate disclosures will be made in the second quarter of 2017.

#### 5. MINERAL PROPERTIES

##### Mineral Properties

Mineral properties consist solely of Red Eagle Exploration's assets, which owns an option on the California Gold Project and owns 100% of each of the Vetás Gold and Santa Ana Silver Projects. The Santa Rosa Mineral Property is included in Property, Plant and Equipment.

## RED EAGLE MINING CORPORATION

### Notes to unaudited condensed interim consolidated financial statements

(amounts are in US dollars, unless otherwise stated)

#### 5. MINERAL PROPERTIES (CONTINUED)

##### Mineral Property Obligations

##### a) California Gold Project

On February 15, 2017, Red Eagle Exploration announced an option to purchase 100% of six exploitation mining concessions from local miners for aggregate consideration of \$5,683,764 in cash and \$7,561,746 which is payable in shares of Red Eagle Exploration. Initial payments of \$345,127 and 2,180,985 common shares of Red Eagle Exploration were paid upon closing.

On March 15, 2017, Red Eagle Exploration announced an option to purchase 100% of two additional exploitation mining concessions for aggregate consideration of \$7,493,250 of which 50% is payable in cash and 50% is payable in shares of Red Eagle Exploration. Initial payments of \$62,444 and 520,367 common shares of Red Eagle Exploration were paid upon closing.

The balance of the payments for both acquisitions are due over a two-year period subsequent to title transfer, at the option of Red Eagle Exploration. An additional payment is due three years from the date of title transfer equivalent to 1.5% of the value of gold and silver measured and indicated resources in the event that any are included in a NI 43-101 Technical Report. The eight properties, which collectively comprise the California Gold Project, total 250 hectares in the California-Vetas Gold District located in Santander, Colombia.

##### b) Vetas Gold Project

On February 14, 2017, Red Eagle Exploration amended the pre-existing acquisition agreements for the San Bartolo and San Antonio properties, which together with other properties collectively comprise the Vetas Gold Project. A portion of the properties were affected by the delineation of the Paramo boundaries and the outstanding amount of the purchase price was reduced proportionately. As final payment, Red Eagle Exploration issued 4,550,000 common shares and paid \$500,000 in cash with respect to the San Bartolo property and issued 116,700 common shares with respect to the San Antonio property.

Red Eagle Exploration has now settled all outstanding mineral property obligations.

#### 6. OTHER RECEIVABLES

As at	March 31, 2017	December 31, 2016	January 1, 2016
VAT credits receivable	\$ 2,507	\$ 2,397	\$ 842
Deposits, mill equipment and suppliers	964	1,849	7,883
	<u>\$ 3,471</u>	<u>\$ 4,246</u>	<u>\$ 8,725</u>

As at March 31, 2017, the Company recognized value added tax ("VAT") credits receivable of \$2,506,990 representing the cumulative amount of VAT paid to the Colombian Government. These VAT credits, depending on the nature, are either refundable or recoverable against corporate taxes in Colombia. These amounts are classified as long-term as the Company does not expect to fully recover them in the next year.

#### 7. NON-CONTROLLING INTERESTS

The Company has a 90% interest in Red Eagle Exploration. The following table summarizes the Red Eagle Exploration financial information included in the unaudited condensed interim consolidated financial statements, before any inter-company eliminations:

	March 31, 2017
Total assets	\$ 16,836
Total liabilities	421
Net loss	754

#### 8. RECLAMATION PROVISION

The Company has provided for future reclamation costs associated with the San Ramon Gold Mine and Mill held by the Company and the Vetas Gold Project held by Red Eagle Exploration. The reclamation costs have been calculated to reflect the amount of expected future net cash outflows discounted to present value for the future reclamation of disturbances incurred as at March 31, 2017. The reclamation provision has been recorded using a discount rate of approximately 6.8% and an inflation factor of approximately 5.8% as established by a Colombian financial institution.

The following is a summary of the reclamation provision as at March 31, 2017 and December 31, 2016:

	March 31, 2017	December 31, 2016	January 1, 2016

#### 9. LONG-TERM DEBT (CONTINUED)

The US \$60,000,000 credit facility has a five year term with a principal holiday and capitalized interest for 18 months from the first advance which occurred in November 2015. Principal repayments commenced on May 1, 2017 and will be made in forty-two equal monthly amortization amounts of \$1,579,377. The credit facility is secured by all of the Company's property and assets.

The credit facility bears interest at a rate of the higher of LIBOR or 1%, plus 7.5%, compounded monthly. The credit facility includes a production payment of \$30 per ounce payable on the first 405,000 ounces of gold produced for a total payment of \$12,150,000. On July 16, 2015, 5,000,000 warrants were granted to Orion Resource Partners (USA) LP to purchase shares of the Company exercisable for a five year term at an exercise price of CAD \$0.275. Considering the various features of the credit facility, the effective interest rate is approximately 16%. The credit facility was fully drawn in 2016.

For the three months ended March 31, 2017, the Company capitalized \$2,251,765 of interest on the credit facility to construction work in progress.

Pursuant to the terms of the credit facility, the Commercial Production Start Date was achieved at the end of the first quarter of 2017 and the Company is currently in compliance with the terms of the credit facility. The Company is required to maintain the following financial covenants:

- at all times commencing 12 months after the Commercial Production Start Date, Debt Service Coverage Ratio on a rolling four fiscal quarter basis of at least 1.5:1;
- at all times after the Commercial Production Start Date, EBITDA to Interest Coverage Ratio on a rolling four fiscal quarter basis of at least 5:1; and
- at all times after the Commercial Production Start Date, Debt to EBITDA Ratio on a rolling four fiscal quarter basis of no greater than 2:1.

#### 13. FINANCIAL INSTRUMENTS

The Company has designated its cash and cash equivalents and amounts receivable as loans and receivables and accounts payable and long-term debt as other financial liabilities. There has been no change to the designations of financial instruments during the three months ended March 31, 2017.

##### a) Fair value

Management assessed that the fair values of cash and cash equivalents, amounts receivable, and accounts payable approximate their carrying amounts largely due to the short-term maturities of these instruments. The Company currently has no financial instruments measured at fair value. The carrying value of the long-term debt approximates its fair value.

##### b) Financial Risk Management

###### Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company's capital management objectives include working to ensure that it has sufficient liquidity to fund Company activities. The Company endeavours to ensure that it will have sufficient liquidity in order to meet short to medium-term business requirements and all financial obligations as those obligations become due. Historically, sufficient liquidity has been provided predominantly through external financing initiatives. In the event of material cost overruns, operational delays or decreases in gold or silver prices, the Company may continue to rely upon sources of external financing in future periods. There is no assurance that financing of sufficient amounts or on terms acceptable to the Company will be available. Refer to Note 1 – Nature of Operations and Going Concern.
